

Product sheet

AcoustiTECH^{MC} SOFIX module

Acoustic module designed for the installation of all types of floor covering

PERFORMANCE

ACOUSTICAL

- Can be installed in any type of building structure
- Can be installed under any type of floor covering
- Allows to keep the mass timber ceiling exposed
- Decreases sound transfer between units, providing a peaceful and quiet environment
- Important advantage when selling a home

QUICK AND EASY

- Fast and easy installation
- Lightweight, easy to handle and to cut
- Stays in place to facilitate the floor covering installation

MECHANICAL

- Structural support specifically designed to prevent sagging and to withstand heavy loads

VAPOUR BARRIER PROTECTION

- High quality vapor barrier that protects the floating floors from water vapor emission that can prematurely deteriorate it

THERMAL

- Reflects heat from the room to the floor to keep it warmer
- Reduces the cold coming from the subfloor by creating a thermal break
- Energy saving by optimizing the thermal performance of the floor assembly

ENVIRONMENTAL

- Revolutionary technology with a new plant-based binder
- Phenol-free, formaldehyde-free, acrylic-free and artificial dye-free
- Contains a minimum of 60% of post-consumer recycled glass
- Meets ASTM G-21 norm, as a product that will not sustain mold growth, bacteria or fungus
- Non-toxic and non-allergenic
- Contributes to obtain LEED® credits

CREDIBILITY

WARRANTY

- *Finitec Hardwood Products Inc.* will replace, refund or repair, for an equal value to the average cost of the market price or any equivalent, a surface underneath which a defective AcoustiTECH™ module has been installed, during the term of the original manufacturer's warranty or a term of 25 years (the shortest of the two)*.

** Subject to the terms, conditions, exclusions and limitations of Finitec Hardwood Products Inc's Limited warranty of AcoustiTECH™ module.*

EXPERTISE

RESEARCH & DEVELOPMENT

- Assembled in Canada
- In constant research; as of now, multiple tests have been done by independent acoustician firms

INNOVATION

- First innovative product meeting the National Building Code (NBC) recommendations for impact and airborne noises in mass timber structure buildings

ASSOCIATIONS

- Member of the Canadian Green Building Council (CaGBC)
- Partner with Vertima, specialized of LEED® certification
- Member of the National Wood Flooring Association (NWFA)
- Member of Green and Smart Building Network
